Delfina Cuero

Her Autobiography

An Account of Her Last Years and Her Ethnobotanic Contributions

by Florence Connolly Shipek

“My name is Delfina Cuero. I was born in xamaca’ [Jamacha] about sixty-five years ago [about 1900]. My father’s name was Vincente Cuero, it means Charlie.”

“With simple elegance the story of a Kumeyaay woman from the San Diego region engulfs the reader, until we feel as though we are sitting at the feet of some great-aunt or grandmother as she tries to pass onto us something of worth from her life.”

Glimpses of History

The San Geronio Pass in the 19th Century

by Betty Kikumi Meltzer and Louis Doody

Based on several years of research, *Glimpses of History* focuses on the story of the Cahuilla people of Southern California’s San Geronio Pass. It was originally intended as a resource for students in the Beaumont and Banning communities, but in the course of the research, the authors realized that Cahuilla history encompassed a much larger area and would have significance for the residents of Southern California from the Pacific Coast to the Colorado River.

The authors have tried to make *Glimpses of History* readable and appealing both to students and to adults with a general interest in the history of Southern California’s native people. That is why it is organized into five brief chapters that highlight Cahuilla leaders and their interaction with the newcomers to the region in the 19th century.

This work sheds light on three periods that profoundly affected the fate of the Cahuilla people: the short period of Spanish rule from 1819 to 1821, the Mexican period from 1821 to 1848 — an era of grand ranchos; and the American period from 1848 to 1892.

The authors, Betty Meltzer and Louis Doody, invite you now to explore these important periods in our local history in this work and its newly-released companion volume, *Losing Ground*.

Losing Ground

What was San Geronio Pass really like in the 19th century? Was it a place where stalwart American settlers staked out their claim to the American Dream in an empty wilderness by sheer grit? Was it like one of those Hollywood sets, with rumbling stagecoaches, hostile Indians, cattle rustlers, school marms, quaking sheriffs and the usual swift justice at the end of a rope?

Losing Ground dispels these cinematic clichés and brings to light a past that has all but remained secret. At the heart of the untold story is how the Cahuilla people became the indispensable labor force that developed the San Bernardino Valley and the San Geronio Pass under Spanish, Mexican and American rule and yet were almost completely banished from their homeland.

El Capitan

by Tanis C. Thorne, with photo essays by Heather Ponchetti Daly

Richly embellished with historic photos and innovative digital maps, *El Capitan* is Southern California regional history at its best. Based upon extensive archival research, the study blends the dynamic social history of Native people with the changing winds of federal Indian policy. *El Capitan* is framed within the larger story of legal dispossession and cultural adaptation of Southern California's Mission Indians under Spanish, Mexican and American rule. Challenging stereotypes, the book traces the actions of strong-willed and capable Native leaders (aka captains) who defended boundaries and resources with the support of "friends of the Indian" and the federal guardian. An intense conflict over water rights culminates in the removal of the Capitan Grande people from their trust land in order to construct the El Capitan dam and reservoir. Defining terms of their capitulation, the Capitan Grande people insist on being relocated as communities. Out of the geopolitical maelstrom of the Depression era came the birth of two new reservations in San Diego County: Barona and Viejas.

Above all, this is a story of native survival in place. The name "El Capitan" is an embodiment of the history, social principles, and world view of Indian people on the Southern California landscape.

Inigo of Rancho Posolmi

The Life and Times of a Mission Indian

by Laurence H. Shoup and Randall T. Milliken

“Inigo of Rancho Posolmi will appeal to anyone who is interested in the Ohlone Indians and the history of California under Spain and Mexico. The authors have reconstructed the life of Inigo, a Santa Clara Mission Indian, and the history of his land grant rancho. It is one of the rare works that charts the life of a single native Californian in the nineteenth century.”

— Albert L. Hurtado, Travis Professor of History,
University of Oklahoma

“Innovative in its approach and provocative in its conclusions, this book adds insight and controversy to the debate surrounding the purpose, function, and results of the Spanish Mission System in California.”

— George H. Phillips, author of *Indians and Intruders*

“Deeply researched, rich in detail, and completely trustworthy in its conclusions, this groundbreaking book provides many valuable insights into the larger issues of Indian life in the Spanish/Mexican eras. Rarer yet, individuals come to life with amazing specificity, evoking a complexity of human drama of the clash of cultures out of which modern California has grown.”

— Malcolm Margolin, author of *The Ohlone Way*,
and publisher, Heyday Books

The Cahuilla Indians

by Harry James

“James sympathetically portrays a much maligned people ... His dramatic description of their history and culture, their ceremonial life, and their highly poetic and broadly cosmic folklore ably supports his thesis that they are a proud, intelligent people.”

— Montana Magazine

“Harry C. James, who has written many useful books on the Southwest, has had a long time intimacy with the Cahuilla. His present book describes their successful fight for food against desert conditions. Then it goes on to later history under the Spanish and the Americans. For sheer brutality, there seems to have been little to choose between the two. Besides, its general interest, this book should be excellent reading as a supplement to geography and history.”
